## Proficiency Test Information

*for*

# Math 112 Intermediate Algebra

- The Intermediate Algebra proficiency test measures math knowledge at the level required for an LCC Associate's Degree. It allows students to demonstrate proficiency in Intermediate Algebra without having to take the course. Passing the test fulfills LCC's math graduation requirement.
- The proficiency test may be taken ONE time only.
- Students must obtain permission from the Mathematics and Computer Science Department. Contact the department at 483-1073 to make an appointment to talk with a department representative and obtain a signed *CORE Proficiency Examination Authorization Form*.
- There is a \$50 non-refundable fee to take the examination.
- The proficiency test is equivalent to the final exam for the course, covering all of the material taught in the course. Extensive review of course topics is HIGHLY recommended using the materials below, which can be purchased at Gibson's Book Store or viewed at the reference desk on the 2<sup>nd</sup> floor of the LCC Library.

Course text: *Intermediate Algebra, Second Edition*, special edition for LCC by Miller, O'Neill, and Hyde, published by McGraw-Hill. ISBN 978-0-07-742546-3

- A passing score is 71% or higher. A score of 76% is required for entrance to LCC's nursing program. Passing the proficiency test does not give you credit for the course, and test results are not recorded on your transcript.
- For more information, call the Mathematics and Computer Science Department at 483-1073.
