SCIENCE AND MATH ELEMENTARY EXPLORATION OFFERS FUN AND LEARNING FOR KIDS!

WHO: Lansing Community College

WHAT: Science and Math Elementary Exploration

WHEN: 8:30 A.M. to Noon, Saturday, November 7, 2009

WHERE: Arts & Sciences Building
Main Campus

Details: The Science and Math Elementary Exploration (SMEE) is the new name for the Elementary Science Olympiad. It will be held in the Arts and Science Building and the Gannon Building on LCC's main campus on November 7, 2009, from 8:30 am to noon. SMEE is open to all elementary age children in the tri-county area: Clinton, Eaton, and Ingham.

SMEE is a day for the children of LCC's community to come to the campus and experience hands-on science and math activities. All events are non-competitive with an emphasis on learning. We offer activities ranging from eye dissection to making and learning about spirals. Faculty and students (elementary education majors) will be running the day's events.

SMEE is very rewarding, fun and exciting for students, parents, and teachers. Students can choose from many activities, focusing on math and all science disciplines. Parents are welcome as chaperones to help their children fully explore the science and math ideas presented. Teachers have used this event as a means of involving parents in their children's education. Many teachers use some of the events as classroom activities to support their science curriculum or as individual science projects. Everyone who attends SMEE goes home with new found information and hopefully a love of science and math.

Individuals and groups smaller than 5 may register the day of the event. The fee for each child is \$3 with accompanying adults free.

Same day registrants should plan on arriving by 8:00 am and stand in the "walk-in" registration line ([Arts & Sciences Building](#), lobby area).
