

Lansing Community College – Spring 2010

Variable Date and Late Start Courses

Variable date sections enable you to finish a course in less than the 16-week semester. Courses may take 1 to 3 days to complete or extend between a 2 and 15 week time frame. Variable date classes start each month and if you missed registration, you can still register for these courses (pending availability) until the first class meeting. Many learning locations offer 14 week classes.

Refer to Course Offerings for exact course start and end date in addition to complete course information needed to register. Non-credit variable date courses are listed separately in the Community Education, and Continuing Education sections.
